

LAYAN VERDE

R E N T A L P O O L

PHUKET | THAILAND

What is rental pool?

Layan Verde is the embodiment of the spirit of Phuket where uniqueness and splendor merge into a whole.

The project features hotels, residential complexes, shopping areas and all the necessary infrastructure.

Here, style and comfort become a lifestyle, and the quality of the services provided meets the highest international standards.

All of this guarantees Layan Verde investors passive income from managing their real estate.

01.

THE OWNER CONCLUDES
AN AGREEMENT WITH THE PROPERTY
MANAGEMENT COMPANY

The agreement provides the owner with a real estate reserve for 30 days a year in the summer. The owner can rest on his own or invite friends or family members.

02.

THE MANAGEMENT COMPANY
CREATES POOLS AND RENTS
THEM OUT

Pools are formed of the same type of apartments. All studios are grouped into one pool, single-bedrooms into another, and so on. All expenses and profits are divided equally between the apartments.

03.

THE OWNER RECEIVES
INCOME AT THE END OF THE
ACCOUNTING PERIOD

The management company calculates rental income for each pool, deducts expenses and calculates the net profit from renting out the apartments. Then the management company provides full reporting and transfers 60% of net profit to the owners.

Cost indicators

TAXES, VAT AND OTHER SERVICE CHARGES - **38%**

Tax, VAT	7%
City Tax	1%
Service Charge (80% of rent)	10%
Bank Charge	2%
